

Multifunctional Lollipop Die Forming Line Lollipop Production Machinery Stainless Steel 304

Specifications :

Payment Terms	L/C T/T Western Union
keyword	CBBT200F Die formed Flat Lollipop Production Line CBBT200S Cane Lollipop Production Line

Detail Introduction :

Die Formed Lollipop Production Line

Product Description

SINOFUDE design and produce the advanced die formed lollipop production line which is used to produce ball shape lollipop of different specifications or gum filled ball shape lollipop. Besides, it can produce other shapes of lollipop after modification according to the requirements of customers. Die formed lollipop production line is mainly consist of automatic vacuum cooker, batch roller, rope sizer, lollipop forming machine ,lifter and 5 layer vibrating cooling machine. The line has compact structure, good performance, high efficiency advantages. Whole die formed lollipop production line is designed and made according to GMP standard.

Die Formed Lollipop Production Line SPECIFICATIONS

Model	CBBT400	CBBT1000
Capacity	300-400kg/h	600~1000kg/h
Steam Required	0.5~0.8MPa 400kg/h	0.5~0.8MPa 800kg/h
Power	24kW/380V/50HZ	38kW/380V/50HZ
Length	18m	20m
Weight	6500kg	8500kg
